# Mandate: Robust API's / SDK

Gartner Group reports that, "50% of commerce sites will integrate technologies from more than 15 vendors to deliver a digital customer experience."

- (Gartner, "Magic Quadrant for Digital Commerce,")

- **Faceted Search Engine:** SOLR Open-Source integrated w/ Cat Codes
- **Google Translate API's:** Auto Multi-Language Capabilities with Dictionary Override
- **Google Analytics:** User Website Visitor Metrics
- **Scanning / OCR:** AWS Textract OCR (as-a-Service)
- **Tax:** (Other than Vertex/JDE): Avalara, TaxWare
- **Logistics:** UPS, FedEx, Old Dominion Freightways, 3PL, etc.
- **Live Chat:** Olark, Bold Chat, etc.
- **CRM:** Salesforce.com, Oracle, etc.
- **SharePoint / Custom:** Different User Interface
- **Social Media:** All
- **Payment Gateways:** PayPal, Authoriz.net, CyberSource, Moneris, Adyen, Fiserv, etc.
- **Geo-mapping:** Google Maps

# 11 Ways to Find Items

1. **Intelligent Search:** (item # or description auto-predict/complete, etc.)
2. **Dynamic Product Catalog:** (menu auto updates) with Guided (Filtered) Navigation
3. **Re-Order from Previous Order:** Ordering from Sales Order History Inquiry
4. **Quick SKU:** Enter/Search on One Item with Quantity
5. **Grid Ordering:** Enter Search on Multiple Items with Quantity
6. **Excel or CSV File Upload:** Spreadsheet with Item, Quantity
7. **Item Price & Availability Page:** with "Add to Cart" Button
8. **Favorites List(s):** Users Can Create an Unlimited # of Lists or You can Deploy Lists (e.g., top 25 ordered items) to Users – Can save Pre-Selected Configured Items Too
9. **Saved Cart List(s):** Similar to Favorites List but Stored Under a "Saved Cart" Menu Choice
10. **Quote to Order:** Selecting All or Selectively from Saved "Quotes (SQ Order Type) Convert to Order"
11. **Schematic Ordering:** Creating an Intelligent Graphic (Usually Exploded BOM) with BOM List – Order from BOM or Hot-Spots on Graphic

# K-Rise Systems: Profile

## Business Process Automation:

- Strategic Portals
- Native Mobile Apps
- Web Apps
- Superior Workflow & Inquiry Apps
- Custom App
- 

## No "Vendor-Lock":

- You "own" the EASYProcess Platform Development "Keys"
- eLearning: Formal & Self Learning
- Eliminate All / Some of the Vendor Services
- E1 Clients are Creating Apps Every Day

## Almost 20 Years of E1 Platform Apps

- Pre-Built Apps – Easily Personalized
- Custom Apps – Simple to Complex
- Integrations – API Centric, REST, SOAP, i-Frame & More
- Sandbox Environment for Learning

## AWS – SaaS Advantages

- Automatic Weekly Updates
- AWS Tenant Setup is Simple
- EASYCloud Connector (ECC) for WAN to you JDE Servers / Database – No Open Port
- Great Performance & Secure
- Data Centers Worldwide (Paris, Sydney, etc.)

**Since 2005 – 100's of E1 Customers – 100's of Successful Projects!  
20 Years in 2025 !!!**

# K-Rise Systems: Innovate Software Technology

## EASYProcess: The 1<sup>st</sup> No-Code / Low-Code Dev App Platform for JDE ERP

- **Proven Success:** Across the E1 Business Landscape
- **Non-Technical People can Develop:** Complex Web / Mobile E1 E1-Integrated Apps

## No-Code / Low-Code (NCLC) is a Game-Changer

- **Drives IT Efficiency:** & Innovation
- **Accelerated App Development:** & Agility
- **Agile Methodologies:** Ensures Responsiveness to Changing Needs

## IDE Roadmap: No-Code Only, Low-Code Only, Combined

- **No-Code IDE:** Empowers Business Analysts & Solution Designers to Rapidly Prototype & Create Without Coding
